WORK EXPERIENCE

Pixel Web Solutions | Web Developer, Madurai, India | Apr 2024 – Present

- Revamped the drag-and-drop grid layout on the trade page, transitioning from jQuery to React.js, enhancing performance and user experience.
- Integrated liquidity APIs into the application, improving data accessibility and functionality.
- Contributed to front-end design and development, ensuring a cohesive and user-friendly interface.

Hasotechnology | Junior Software Developer, Madurai, India | Dec 2022 – Apr 2024

- Successfully integrated the WhatsApp Business API for automated patient reminders, optimizing communication processes.
- Contributed significantly to the backend development of the "Seller Central" web application, utilizing Node.js and Express.js. This application seamlessly integrated with Shopify, Shopee, Lazada, and Magento APIs.
- Integrated the WhatsApp Business API to personalize marketing and reminder messages based on patient DOB and other relevant data.

PROJECTS

Omex Crypto Exchange ⇄ Nextjs, Redux, Bootstrap, AMM Boosted platform efficiency and user engagement on Omex Exchange by integrating Automated Market Maker (AMM) using Next.js, Redux, and Bootstrap, delivering a high-performance and intuitive trading experience.
